## Recto of the pouch

You can print on the entire outside of the package, i.e. on the front and rear of the closed package. Only a small zone will be set aside for legal notices; therefore, you cannot place any message there. On the other hand, you can always use your backdrop colour in this area. Avoid excessively gaudy backdrops that make the text difficult to read. Be sure to consider the closure either by gluing or by manual closing for your visual creation.

## Verso of the pouch

The back of the package, i.e. the inner liner of the closed package, is reserved for instructions on how to use the condom. Default printing is one colour: black text on white background.

## Back view of closed pouch

The cover is sealed automatically by a transparent sticker
